SUBJECT: Development Review Modification for LU 21-0078 to relocate Fire/Maintenance Access Route on Tax Lot 21E16D 01100 at 18011 Stafford Road

DATE: June 5, 2025

Lake Oswego Parks & Recreation has reviewed the proposed concept for relocating the existing fire and maintenance access route at the north edge of Rassekh Park, 18011 Stafford Road. We are supportive of the conceptual design, contingent upon approval from other affected City departments and review processes. We intend to continue to coordinate with the project design team to refine specific details such as fencing, planting, bollards, and pedestrian pathways proposed to be located on park property. This agreement is not binding, and the City reserves the right of final review and approval over improvements proposed on park property.

Thank you,

Ivan Anderholm, Director
Lake Oswego Parks & Recreation
